# World Harmony Foundation Middle East and Africa Chapter Background

## United Nations Environment Programme

برنامج الأمم المتحدة للبيئة · 联合国环境规划署  
PROGRAMME DES NATIONS UNIES POUR L'ENVIRONNEMENT · PROGRAMA DE LAS NACIONES UNIDAS PARA EL MEDIO AMBIENTE  
ПРОГРАММА ОРГАНИЗАЦИИ ОБЪЕДИНЕННЫХ НАЦИЙ ПО ОКРУЖАЮЩЕЙ СРЕДЕ

28 November 2005

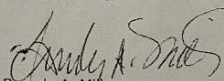

Dear Mr. Jordan,

Reference is made to your earlier communications with my colleagues in the Division of Environmental Policy Development and Law, requesting accreditation of World Harmony Foundation to the Governing Council of the United Nations Environment Programme (UNEP).

Rule 69 of the Rules of Procedure of the Governing Council provides that international non-governmental organizations having an interest in the field of the environment may designate representatives to sit as observers at public meetings of the Governing Council and its subsidiary organs, if any.

In keeping with this rule, and taking into account the documents provided by you, a decision has been made that World Harmony Foundation will be accredited to the Governing Council of UNEP. Your name will be included in our list of non-governmental organizations that receive invitations to public meetings of the Governing Council as observers at its sessions to be held in 2006 and onwards.

Yours sincerely,

  
Beverly A. Miller  
Secretary, Governing Council

Mr. Richard Jordan  
CEO, World Harmony Foundation  
211 East 43<sup>rd</sup> Street, Suite 1602  
New York, NY 10017

Fax: 212-490-2770

Copy to: Ms. Cristina Boelcke, Officer-In-Charge DPDL

The World Harmony Foundation is a member of the UN Environment Programme's NGO Major Group since 2005, formed by ambitious figures of different ethnicities and from different UN regions who love peace and environmental protection, including former UN staff, investors, educators, scientists, retired military, and student leaders. Inspired by great thinkers from the oriental and occidental, World Harmony Foundation is established as a non-profit organization. It aims to convey harmony and peace around the world and towards educational organizations, civic bodies and future leaders, which conforms to the mission and charter of UN.

The mission of World Harmony Foundation is to promote harmony between human beings and mother nature, between human beings, between human beings and society, between nations, between religions, between families, and harmony and care of human bodies. "Communal brightness out of seeking minor common grounds and reserving major differences" is its motto.

Office of the Honorable  
Sheikh Hamdan Bin Ahmed Al Nahyan  
Ambassador

DATE: 14<sup>th</sup> April 2022

To:

H.E. Vishnou Toolcanon  
Chairman / Ambassador WDP  
World Development programme

Dear H.E. Vishnou Toolcanon,

Thank you for your letter dated 13<sup>th</sup> April 2022.

We are very delighted to have an association with World Development Programme (WDP). The various initiatives that you mentioned in your letter fits nicely into our group's larger goals to provide better living standards to human lives across the world especially in countries with weaker economic background. Our esteemed partners in the United Arab Emirates, The Office of Sheikh Hamdan Bin Ahmed Al Maktoum will be equally delighted to associate through our organization with World Development Programme and World Harmony Foundation.

We are pleased to confirm our wholehearted commitment to establish the office of World Development Programme in the UAE, more specifically in Abu Dhabi in the diplomatic enclave among all the major Embassies of the World.

Thank you for giving us the opportunity to associate in your School project in Kenya and in other African Countries.

We look forward to taking World Development Programme (WDP) and World Harmony Foundation (WHF) initiatives along the Middle East Countries by setting up the office in Abu Dhabi and by collaborating with your organization on various social programmes and also to promote business activities from all the Middle East Countries.

Yours faithfully

# Our Mutual Main Objectives in Africa

*Human beings are a community of shared future.*

- Empowering support in Education  
**JOY (LEARN WITH JOY)**
- Support in health  
**WATER ENERGY FOR PEACE**
- Promotion of gender equality and human rights  
**HER CLUB BY DOLLY**
- Empowering support in Economic development  
**BELT AND ROAD DEMOSTRATION ZONE**
- Green Environmental Protection  
**META COVID FREE**

# Her Club by Dolly

Middle East and Africa Chapter (UNEP - WHF)

“Her club By Dolly” is a feminine-based community initiative that began operations in Africa and Asia with the goal of making every girl worldwide experience safe, hygienic days free of embarrassment during their menstrual periods. Her club’s mission is to use practical methods such implementing machinery to help girls and women produce their own sanitary pad and manage their menstruation hygiene.

*Making them Independent & Fearless*

# Foster Education

Middle East and Africa Chapter (UNEP - WHF)

“Foster Education” is a kind of public welfare activity in the society. The purpose is to help the backward provinces, counties, cities, towns and other places to build schools and run schools, or to connect with poor students, or to provide comprehensive education and teaching for a long time through meaningful activities such as aid funds and materials. Help to improve, thereby bringing hope and dreams to a place. They not only donated money to repair the school, but also provided financial assistance to students at any time. Students are guaranteed to study, paving the way for the flowers of the motherland to bloom as scheduled.

# Water Energy for Peace

The Water Energy for Peace project aims to provide safe drinking water and Green Energy to empower the community mainly schools and hospitals to promote sustainable development. Our water system is an off-the-grid generator that can produce pure water from water vapor freely accessible in ambient air.

# Epidemic Prevention

## RE: Thanking Letter

World Fund for Development and Planning is an intergovernmental organization, affiliated to United Nations (UN-OSAR). We are a non-profit organization and all our engagements are for humanitarian purposes.

We are grateful for the support you have provided to our diplomats from India - Mr. Dikshant Mahant and Mr. Divyanshu Mahant. We appreciate the efforts AIPO Group and team are taking towards saving humanity and people of India. Special thanks to Mrs. Ariel Huang, Founder AIPO Group for making this happen.

We are thankful to the support provided by your organisation in these times.

We are glad to be a part of this humanitarian project managed and executed by you all. We look forward to your constant support.

# Environmental Protection

Africa is the root of life of the world, but it is always suffered from water shortage, that is the main reason there is many mutation of viruses found in Africa.

In addition to people's vaccine solution, we promote environmental protection and prevention medicine. Therefore, WDP and WHF-MEAC recommend the advanced technology – **MetaCovidFree™** Spray can be used to avoid cross infection due to the environment.

Function: Anti-Viral, Anti-Bacterial, Anti-mold, Anti-Odor, Anti-Formaldehyde, Anti-TVOC (Total volatile Organic Compound), Fight Dirt, especially for public environment protection to reduce the National medicine expense.

# Agricultural Education and Innovation-Renewable Energy

There are many potential advantages to using biomass instead of fossil fuels for meeting energy needs. Specific benefits depend upon the intended use and fuel source, but often include: greenhouse gas and other air pollutant reductions, energy cost savings, local economic development, waste reduction, and the security of a domestic fuel supply. In addition, biomass is more flexible (e.g., can generate both power and heat) and reliable (as a non-intermittent resource) as an energy option than many other sources of renewable energy.

## Why Local Generation?

Electricity created at large plants located far from the consuming population needs to be converted into very high voltages to avoid losing much of the power as it travels the transmission lines. As the voltage increases the transmission lines need to be raised higher off the ground, more land for right of ways and larger transformer costs. When smaller generation facilities are located near lower density populations the transmission distance is no longer a problem that requires ultra high voltage lines. Once the capital outlay and ongoing operational expense of high voltage transmission facilities is removed the economics are re-balanced, creating opportunities for municipalities and co-operatives.

Can be fermented into biogas, Can be compressed into green pellets, green briquettes or Bio-Methane gas, Can be developed into Bio-Fuel  
Can be processed, via torrefaction, into BioVOLTZ black Bio-Coal pellets, Can be planted on uncultivated land and  
Increases soil fertility.

# Belt and Road

Africa is an indispensable and important part of the "Belt and Road" international cooperation. At present, 44 African countries and the African Union Commission have signed the "Belt and Road" cooperation documents with China, accounting for about one-third of the total number of countries and international organizations that signed such documents. A large number of projects such as railways, highways, airports, ports, and power stations have been successfully implemented, bringing significant changes to Africa's economic and social development. China has been Africa's largest trading partner for 11 consecutive years and one of the main sources of investment in Africa, contributing more than 20% to Africa's economic growth for many consecutive years.

# World Harmony~ the Harmony Bell

Middle East and Africa Chapter (UNEP - WHF)

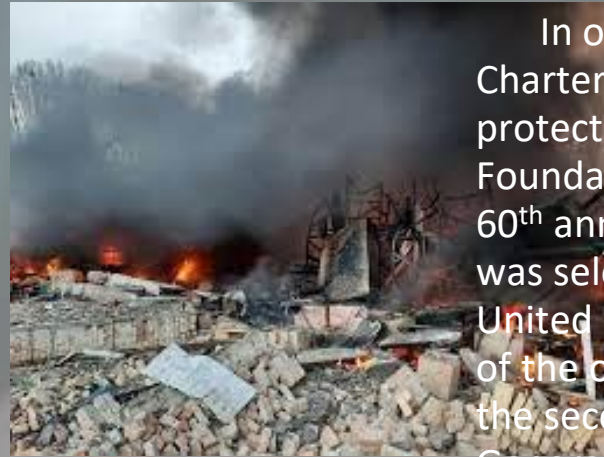

**Kofi Annan**

Former Secretary-General of the United Nations

**Mr. Xanana Gusmão**

Former President of Timor-Leste

In order to promote the United Nations Charter and promote environmental protection and peace, the World Harmony Foundation created the Harmony Bell at the 60<sup>th</sup> anniversary of the United Nations, and was selected by the Secretary-General of the United Nations Kofi Annan as the first symbol of the opening of the ceremony. One ringing, the second ringing by the President of the General Assembly, and the third ringing by the President of the Security Council. This is a very important moment for the United Nations. When the bell rings, it is like the renewal of the times, and it also rings the celebration. Start. Ringing the bell of harmony at this special international moment also conveys the sound of harmony and peace to national leaders and citizens around the world.

# World Harmony~ the Harmony Bell

On the afternoon of January 31, 2022, the countdown to the Winter Olympics is being broadcast on the Disney screen in Times Square, New York, until February 1, 2022. The film shows many of United Nations personalities and key U.S. dignitaries and cultural stars wishing for the New Year of the Tiger and the Winter Olympics. It is reported that this event is jointly organized by World Harmony Foundation and the Peaceever TV, and is broadcasted on the screen in Times Square, New York, with senior UN officials, US dignitaries and cultural celebrities wishing Asian people the Lunar New Year and the success of the Beijing Winter Olympics, adding a festive touch to New York.

On these screens, a video of the Secretary-General of the United Nations and President of the 76th session of the General Assembly congratulating Asians around the world on the New Year and wishing Beijing 2022 Winter Olympic Games a success will be shown first. In addition, the President of the United Nations Economic and Social Council, Collen Vixen Kelapile, and the President of the 74th session of the United Nations General Assembly, Muhammad Bande, will ring the “Golden Bell of World Harmony” to welcome the New Year at the United Nations Headquarters in New York, sending the message of “Happy New Year! Wishing you sustainable peace and security!” They also wished the 2022 Beijing Winter Olympic Games a great success.

- Ntombi was also part of The Children of the War Campaign prior to the downfall of the Apartheid Regime in South Africa, through this campaign she was widely interviewed in the USA on the atrocities of apartheid.

# Projects in 2022-2025

# Project 1 H2O~ Water from Air

We aim to help people to produce the clean water in middle East and Africa to fix the water shortage issue.

## SOLUTION

ELECTRICITY, WATER AND FOOD CAN BE PRODUCED USING ONLY LOCAL NATURAL RESOURCES

By combining large-scale machines to generate 400,000 liters of water and can be used for hydroponics.

5

## SOLUTION IMAGE IN RURAL

POWER SUPPLY CUBE × WATER MAKER  
SELF-SUFFICIENT COMMUNITY WITH OFF-GRID INFRASTRUCTURE

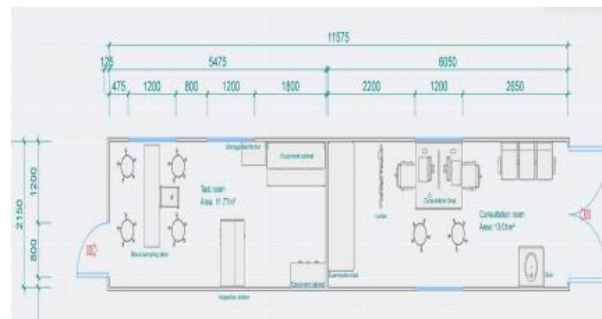

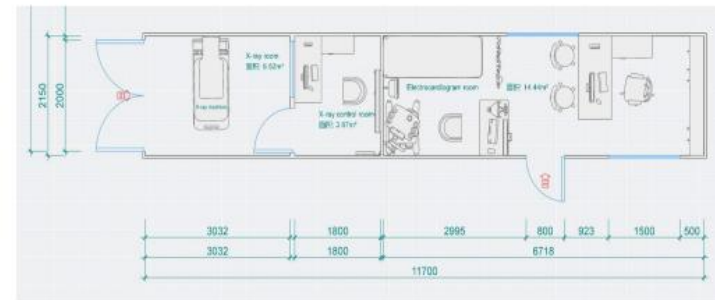

6

Water stations utilizing solar panels, storage batteries we will be installed in each village to supply electricity and water infrastructure for local residents. Smaller units will be deployed as bank loan sales and home accessory appliances for the 20 million affluent people, and after a market is formed, second models and used products will be sold in stages.

# Project 2 Tiny Medical Center

## Mobile Clinic & Lab Automation

To solve the medical resource shortage with limited budget, we design the mobile clinic and lab automation platform. We can easily install the system everywhere, the facility is with self-clean mechanism, water automation system and Energy storage to overcome the infrastructure difficulties of Africa.

Water stations utilizing solar panels, storage batteries and we will be installed in each village to supply electricity and water infrastructure for local residents.
